

MAX ANTINONE

FULL STACK WEB DEVELOPER

E: mantinone@gmail.com | W: www.mantinone.com | +505 977-3478

I'm a full stack web developer with a background in digital art and game development. I integrate new information quickly and am most engaged when I'm in a little over my head learning something new. I enjoy working collaboratively to find solutions to challenging, meaningful problems.

PROJECTS

EAST MARCHES CLOCK BOT

[Web Version](#) [GitHub](#)

- A Discord Bot for keeping track of the in-game calendar for a large shared D&D campaign.

ECHO

[GitHub](#)

- An infrastructural web application used by Learners Guild to track attendees' progress and performance
- Fixed several problems with the filtering and display of users' project information
- Built with NodeJS, Express, React, Redux, ESLint, Babel, Webpack, Moment, RethinkDB, SCSS, Mocha, Chai

COACH QUEUE

[GitHub](#)

- A system to track coaching requests for Learners Guild, used by 70-80 Guild members on a daily basis
- Designed RESTful API endpoints for retrieving, filtering, and presenting coach requests
- Built using Node, Express, PostgreSQL, pg-promise, Knex, mocha and chai, React, Webpack, Babel

TROSSELLO

[Live Project](#) [GitHub](#)

- Created an in-house clone of Trello for internal project management
 - I worked on drag and drop functionality, created the color coded due-date badges, other small features and bug fixes.
 - Built with React, NodeJS, Express, jQuery, Knex, PostgreSQL, pg-promise, Webpack, SCSS, Moment, Mocha, Chai
-
